## SUMMARY

Seasoned, Mid-to-Senior-Level Web Application Developer with several years of experience in developing and maintaining web applications. Skilled in a wide array of technologies and eager to produce software solutions that meet or exceed expectations. I can utilize a variety of languages, libraries, frameworks, tools, and other technologies to achieve desired results.

## WORK EXPERIENCE

### **Bader-Rutter and Associates**

Milwaukee, WI (Remote)

Frontend Developer

Oct 2023 - Jul 2024

- Developed and maintained web applications using Vue 2x/3 and JavaScript, incorporating Azure, WordPress, and Firebase to enhance client solutions.
- Played a significant role in creating a Progressive Web Application (PWA) that achieved notable success and recognition within the agency.
- Contributed to a high-impact project considered the best in agency history over the past decade, delivering innovative solutions for clients such as Zoetis, McCain Foods, Douglas Products, and Corteva.

### **The Eighth Notch / The Rockridge Group**

Nashville, TN (Remote)

Web Developer

Jan 2023 - May 2023

- Developed and maintained frontend and backend components for a client portal, data dashboard, and company website, utilizing technologies such as HTML, CSS, JavaScript, and Python/Flask.
- Managed cloud-based solutions and database systems with Google Cloud Platform, BigQuery, and MySQL, enhancing data accessibility and performance.
- Streamlined project workflows by maintaining organized Jira tickets, frequent GitHub commits, and deploying projects to test environments using Jenkins.

### **Freightwaves**

Chattanooga, TN (Remote)

Frontend Developer

Jul 2022 - Oct 2022

- Developed and maintained SaaS platforms for the freight industry using Vue3, Vuex, and Pinia.

# Hayden Bradfield

Web Application Developer ◆ Knoxville, TN, USA

www.haydenbradfield.com ◆ (865) 500-9460 ◆ me@haydenbradfield.com

- Utilized TypeScript and SCSS to enhance platform functionality and user interface design.

## **Tombras Group**

Knoxville, TN (Remote)

Frontend Developer

Feb 2022 - May 2022

- Collaborated with the .NET team to develop and enhance websites for Daimler, a Fortune 500 company, focusing on their Freightliner and Western Star brands.
- Utilized Umbraco, CSS, Tailwind CSS, and JavaScript to update and modify website functionalities and interfaces, ensuring optimal user experience.
- Managed code versioning and project collaboration using Git and Bitbucket, contributing to streamlined development processes.

## **Solution Consulting Group**

Knoxville, TN (Remote)

Web Application Developer

Mar 2021 - Jan 2022

- Developed the user interface for a collectible card grading software, enabling graders to calculate centering scores and assess corners, edges, and surfaces.
- Utilized HTML, CSS, JavaScript, TypeScript, and graphics libraries (Konva and OpenSeadragon)
- Collaborated with AI and backend engineers to build strong solutions
- Created email templates and implemented Object-Oriented programming practices to streamline development processes

## **Bluestone Apps**

Knoxville, TN (On-Location)

Junior Developer

June 2020 - Jan 2021

- Coordinated development projects with international teams, ensuring seamless communication and project alignment.
- Developed hybrid, cross-platform mobile applications utilizing Angular, Ionic Framework, and Apache Cordova.
- Contributed to the development of two projects, including Check Runner and Home Birds
